1. All pending claims 1-14 are allowed. Claims 1 and 9 are independent.
2. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 9 and their dependent claims 2-8 and 10-14 are allowable over the prior art of record because the prior art, cited below, does not teach that the control board is integral with the image reading means, and the control board is connected to the interface as claimed in claims 1 and 9.

Please note that many of the prior art references (or references) cited below disclose a control board connected to an image-reading unit or carriage by a connection cable, the reading unit scanning along the original glass. However, none of the references disclose that the control board is integral with the image reading unit as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
